Our liberty is being challenged by a foreign group of terrorists! Let us though keep our other eye on the other group that is threatening our liberty, <b>THE AMERICAN GOV'T!</b></p> <p>I know this is a time that we need to pull together.. but NEVER let your guard down!</p> <p>The US gov't instuted tax withholdings in WWII to pay for the war. Before then, you just cut uncle sam a check every year. Well over 54 years later, and they are still withholding.</p> <p>So my question to you is.. How do you think this newest war will effect American citizens?</p> <p>National ID cards? 'PAPERS PLEASE' at every city border?</p> <p>What do you think will happen?</p> <p>Don't let your guard down!</p>

Could you? "What if we loose the war? Do we turn in our cowboy hats for towels?"</p> <p>"What if its an ambush? They get all of our troops over there and light off a nuke? Then they activate the terrorists stashed over here and attack once again?"</p> <p>"What if it was our own government that staged this?"</p> <p>Scary...</p>

No, no, no.

I mean a national ID card that has a microchip on it with all of your personal info. Neal Boortz knows that there are already proto types.. he has seen one at a fund rasier... the people who prototyped it were part of the Clinton admin.. and they were very proud of this idea...

Mark of the beast folks

I fail to understand and can't support the new FAA airline and airport restrictions. Nothing being implemented in any way addresses the way the planes were hijacked. What needs to be better regulated are the ramp passes.

Here in Reno, we have had to close down a beautiful new parking garage because it's too close to the terminal. A car bomb left in a car in that garage would not affect a plane on the tarmak. We will no longer be able to greet visiting friends at the gate arriving on incoming flights, nor will we be able to have friends greet us at the gate in other places. No curbside check-in. No more airmail for the foreseeable future.

None of these measures would have prevented Tuesday's tragedy. What is needed is more highly-paid and trained professional airport and airline security. We need Sky Marshals on every flight. Airline cockpits should be impenetrable. We don't need a scenario that assumes we are all criminals just because we want to go to the airport to meet a visiting friend.

#### RAGE OVER RAGE

The messageboard on the official RAGE AGAINST THE MACHINE website has been closed "in light of repeated phone calls...received from the Secret Service" with regard to "inflammatory posts" on the system following the terrorist strikes in the US earlier this week.
