Mid-life is when the growth of the hair on our legs slows down.that gives us plenty of time to care for our newly acaired mustache.,</p> <p>Mid life women no longer have upper arms: we have wingspans.</p> <p>We are no longer women in sleeveless shirts: we are flying squirrels in drag.</p> <p>Mid-life has hit when you can stand infront of the mirror and see your rear with out turning around.</p> <p>Mid life is when realize that,if you were a dogyou would need a control top flee collar.</p> <p>Mid-life is when you go to the doctor and you realize you are now so old ,you hve to pay someone to look at you naked.</p> <p>Mid-life is when your memory really starts to go:the only thing you retain is water.</p> <p>The good news about mid life is the glass is still half-full.Of course ,the bad news is that it will not be long before your teeth are filling it up.</p> <p>old 63 Ladies remember it is the laugh that really counts</p> <p>----- davidguyer</p> <p style="text-align: right;">IP: Logged</p>

(I am referring to the item that only person who sees you naked is doctor you have to pay)</p> <p>Every time they give me one of those paper gowns, the darn thing rips. I can never remember if you are supposed to put it on with the opening in front or back.</p> <p>I don't mind the exam. It's the disgusted look I get from the skinny nurse who watches that annoys me.</p> <p style="text-align: right;">IP: Logged</p>
